Hello , we have heavy traffic build up at kilometer 35 because there was a bus accident there a few minutes ago. You might want to take an alternate route instead. Kilometer 76 is free. Not traffic there at all.

VI. Express an Opinion. *For this question you will listen to a familiar issue and offer your opinion on it.*

Would you prefer to do a project as part of a team or individually on your own?

Sample Answer:

As far as the projects are concerned, I would like to do it as part of a team with some other people. There are some reasons behind this. First of all, a team always means more probability to success. If one member do something wrong, other can help to set things right. Another point is it is always a pleasure to work with people than work alone. For these reasons, teachers in schools or colleges tell the students to make groups for their assignments or projects so that they can help each other. That's why I prefer a team than on my own.

Tutor *Your student will most likely not be able to give the answer as indicated here but you can choose the important points to them to help them in further like quizzes.*
